

**Example Household: Progress & Savings****View > | Summary | Trends | GreenBuys | Usage records | Starting Values |****Example Household Summary Progress Report****5/9/2004 til 5/10/2004****(30 days)**

**COOLmob** Here are your emissions figures, usage patterns, savings, and environmental impact assessments based on the monitoring data your household has provided us with to date:

**Daily Emissions**

Actual	Target	Units
24.65 kg	44.24 kg	kg CO <sub>2</sub> per day

**Actual** is the average daily amount of greenhouse gas your household released to the atmosphere in this reporting period.

**Target** is the seasonally adjusted maximum you should have released if you are going to meet your savings target.

**Usage Patterns**

Electricity	Transport	Units
43.97% 325.11 kg	56.03% 414.31 kg	Percent of Total Total kg CO <sub>2</sub>

In this reporting period, how much of your emissions comes from electricity usage and how much from transport? If your transport numbers are high, consider using more public transport.

**Household Savings Progress**

Baseline Savings	Target Savings	Units
\$252.87 610.88 kg	\$281.97 587.81 kg	This Period Dollars \$ (kg CO <sub>2</sub> )
\$236.91 2,087.92 kg	\$1,598.96 1,947.21 kg	Your Total Dollars \$ (kg CO <sub>2</sub> )

How much money have you saved as a COOL Household? How much greenhouse gas?

**Baseline Savings** is in relation to your audited usage when you started with COOLmob.

**Target Savings** figures show where you are in relation to your savings goal of 1 tonne greenhouse gas reduction per year.

**This Period** amounts are just for this reporting period  
**Your Total** amounts are since you joined COOLmob. Negative numbers mean that you just need to try a bit harder!

**Household Impact Number**

Current	Starting
6.16	11.25

Your **Household Impact Number (HIN)** is a calculation of the per-person greenhouse emissions for your household. Lower numbers are better: someone who doesn't release any carbon would have an HIN of 0.0!

**Current** is your HIN for this reporting period.

**Starting** is the HIN for your household when you joined COOLmob.
